SEWER AVERAGE CALCULATION:

EXAMPLE:

Every March, the Sewer Rate is averaged with the January and February water usage, with the minimum of \$13.70 for all new accounts.

EXAMPLE:

Base Fee 1 st 2,000 gallons	\$13.70
--	---------

January 6 thousand gallons February 5 thousand gallons
 $6+5=11$ thousand gallons/2 for average = 5.5 thousand gallons (rounded to 6)

6,000 gallons (average) - 2,000 (1st 2,000 gallons) = 4,000 additional	\$3.20*4 =	12.80
--	------------	-------

The new average Sewer Rate for the year will be \$26.50 each month beginning	\$26.50
--	---------

with March billing dates, due date April. See next page for billing cycle.
